# How do I log in to Cirrus?

In order to assess digitally, the Radboud University uses Cirrus Assessment. This program can be used on your computer.

Start up your browser and go to cirrus.ru.nl. A login window will appear.

- Click **Login met SURFconext**.

- You will be directed to the SURFconext page where you have to select a setting. Select **Radboud University** in order to log in with your U/E/S number, or click **Radboudumc** to log in with your Z number.
- Enter your username and password and click login. To do so, use your Radboud University or Radboudumc account (U/E/S/Z number).
- The first time you log in, a window will appear that asks you to give permission for your user-ID to be used for identification in Cirrus. Read the text and then click <Yes, continue [...]>.

You are now logged in to Cirrus.

> ℹ️ Before you can start using digital assessments you will have to set up an appointment with the faculty coordinator of digital assessments. Then you will have to ask permission to use Cirrus in the Account Portal. Are you experiencing difficulties when logging in? Please contact the faculty coordinator of digital assessments.
